WEATHER HALTS RETURN TRIP OF OCEAN FLIERS

MOYLE, ALLEN REPORT THAT THEY WILL LEAVE ISLAND AS SOON AS POSSIBLE

Tokio, Sept. 18.—(U.P.)—Undaunted by storms that ended their transpacific flight on a lonely islet off Siberia, the American aviators Don Moyle and Cecil Allen reported by radio today that they intended to start from Navarin island for home, possibly today.

Moyle said in his message to Asahi newspapers here that the flight will be continued as soon as possible, weather permitting.

The report, telling of their fight against treacherous storms and winds over the north Pacific, related for the first time how they arrived at Navarin island, near Cape Navarin, far off the "great circle" route they had planned to follow.

Moyle and Allen flew through storms for 34 hours after leaving Sabishiro Beach, 275 miles from Tokio, Moyle said. They were forced down on an uninhabited, unnamed island. Waiting until the storm abated, they took off again and headed northwestward, finally being forced down by lack of fuel at Maino Pirgino, near Cape Navarin.

CANNON FROWNS ON ROOSEVELT AS DEMO CHOICE

SAYS NEW YORK GOVERNOR IS JUST AS INACCEPTABLE AS ALFRED E. SMITH

New York, Sept. 18.—(U.P.)—Governor Franklin D. Roosevelt's views on prohibition make him just as inacceptable to dry democrats as a presidential candidate as was Alfred E. Smith, Bishop James Cannon, Jr., of the Methodist Episcopal church, South, said last night on his arrival from Europe.

The Virginia Methodist leader announced his intention of actively opposing the Roosevelt's presidential boom. He also will fight the candidacy of anyone not wholeheartedly in favor of the 18th amendment and the Volstead act.

Cannon's activities against Smith in Virginia in 1928 were credited with helping Hoover to carry the state. A senate committee, headed by Senator Grelad P. Nye of North Dakota, has been inestigating his use of funds in that campaign.

"I didn't divert one penny of that money to my personal use," Cannon said in commenting on the Nye inquiry. "I would welcome a grand jury investigation to show that I am right, but I haven't been able to get one."

FEDERAL RESERVE SYSTEM RIGHTS FOR CITIES URGED

ROCHESTER MAYOR URGES SEN. SHIPSTEAD TO SEEK NECESSARY LEGISLATION

Rochester, Minn., Sept. 18.—(U.P.)—Mayor Julius J. Reiter today called upon Senator Henrik Shipstead to seek legislation that would give municipalities the rights of the federal reserve system and enable them to issue 20-year bonds at one-half of one per cent interest "to deliver a crushing blow at depression and unemployment."

The legislation would be sought at a special session of congress, Reiter explained. Cities would embark on a large building program if enabled to issue bonds at a low rate.

"Rochester needs several new public improvements," Reiter said. "These projects, I estimate, would amount to approximately $750,000. The city will vote the bonds and the government must accept them and return federal reserve notes for the same amount. The city would agree to pay interest and five per cent of the principal each year for 20 years and retire the bonds."

"If every municipality in the country should be given advantages of this plan, it would bring us out of the depression," Reiter claimed.

Armed Prisoners Storm Workhouse; 14 Gain Freedom

GUARD AND RING-LEADER OF RIOTING CONVICTS WOUNDED IN EXCHANGE OF SHOTS

Wilmington, Del., Sept. 18.—(U.P.)—Two men, a guard and a prisoner, were shot today when rioting broke out at the New Castle county workhouse, six miles from Wilmington.

Prison officials said 14 prisoners had escaped during the rioting.

The injured were Anthony B. Hayden, guard, and Clarence Cole, convict.

Officials said Cole was the ring-leader of the outbreak.

Cole was recaptured outside the prison walls after he had been wounded in the shoulder by a guard. He was serving 18 years for banditry and was brought to the prison a few years ago from Wilmington.

Most of the escaped men were long term prisoners.

Authorities charged a prisoner known as Stillers, also a long termer held for banditry, with Hayden's shooting.

Where the prisoners obtained the pistols and their other weapons was a mystery.

General rioting marked the escape, the most spectacular in the institution's history.

Two escaped convicts were recaptured two hours later several miles from the state penal institution.

INDUSTRIALISTS VOICE APPROVAL OF SWOPE'S PLAN TO AID WORKING MAN

New York, Sept. 18.—(UP)—The "Constitution of American Business" proposed by Gerald Swope, president of the General Electric Company, has met with approval, a survey by the United Press revealed today.

A number of prominent industrialists declined to comment at present, pending further study of the plan. A few voiced opposition and others said they regarded the plan as Utopian. The federal supervision feature was regarded with suspicion by some.

Swope's plan, announced Wednesday night at a dinner of the National Electric Manufacturers' Association, provided that each industry organize a trade association to formulate trade practices, establish standard accounting practices, and work for stabilization of prices.

Labor would be given greater security through workmen's compensation, life and disability insurance, old age pensions, and unemployment insurance. The entire scheme would be under the supervision of a federal board, so that the public's interest might be protected.

Comment was as follows:

Col. Robert Isham Randolph, president of the Chicago Association of Commerce: "The Swope plan is ideal in its broadcast application, tending as it does to make ample provision for vexing indistrial problems. Questions concerning labor, production and stockholders are entirely feasible. But in proposing federal provision of private trade it should be remembered that excessive governmental control tends to lessen individual initiative."

W. D. Lippet, Denver, president of the Great Western Sugar Company: "Arbitrary and artificial control of production and prices, which I understand to be one of the fundamentals of Mr. Scope's plans, has rarely if ever been successful and has many elements of danger. That the essential

ENGLISH BANKERS WARN AGAINST MONEY DEFLATION

NAVY STRIKE AND GENERAL ELECTION RUMORS MAY DRIVE DOWN POUND STERLING

London, Sept. 18.—(U.P.)—Warning that the present grave situation in Great Britian may cause an "alarming fall in the pound sterling" was given the government by the board of governors of the banks of England, the Daily Mail said today.

The precariousness of the exchange situation was said to be mainly the result of the "passive strike" of enlisted men of the Atlantic fleet and rumors of a general election. According to the Daily Mail, officials of the Bank of England requested the government to announce definitely that a general election was not contemplated soon.

A cabinet meeting at which the government was said to have received the views of the Bank of England ended at 11 p. m. last night without an announcement of what took place. It was understood that Prime Minister Ramsay MacDonald urged an early decision for or against a general election.

The Laborite Daily Herald confirmed the Daily Mail's report that a committee of bankers, headed by deputy governor of the Bank of England, Sir Musgrave Harvey, paid an unprecedented visit to MacDonald at the house of commons.

A meeting of leaders of the Liberal party decided unanimously against a general election and instrusted Sir Herbert Camual to inform the cabinet of the decision. The cabinet meeting was the third in two days.

Ships of the Atlantic fleet will reach their home ports Saturday, where they were ordered after the passive mutiny of enlisted men had forced the suspension of high seas maneuvers, with the official intimation that the men who struck against pay cuts will not be prosecuted.

KIDNAPING PLOT FAILS AS VICTIM KILLS ABDUCTORS

FILLING STATION OPERATOR GREETS PURPORTED KIDNAPERS WITH GUN FIRE

Atlanta, Tex., Sept. 18.—(U.P.)—A gun battle with four purported abductors and their intended victim resulted today in the death of three of the supposed kidnapers, wounding of a fourth and the wounding of the victim, J. H. Boyd, 50, filling station operator.

Badly wounded himself, Boyw gasped out the story of how he had frustrated an attempt to kidnap him.

Those dead are Hardy Luce, Rube Billifish, 30, Boyd's stepson, and Early Sullivan. A brother of Early, Bill Sullivan, the fourth purported kidnaper is in a Shreveport, La., hospital.

"One of the men came to my station about 11 last night and said their automobile had run out of gasoline," Boyd said. "I went to the station, got a can of gasoline and drove out on the Shreveport highway with them.

"We came to the automobile and there three men were waiting for us. Two of the men were in the automobile and one was on the road. One of the men grabbed me and struck me over the head. But it didn't knock me unconscious."

Boyd drew his .38 calibre revolver and started shooting four shots rapidly.

UNEMPLOYMENT RELIEF CHAIRMAN OUTLINES PLANS

AIM IS NOT TO CREATE NATIONAL FUND BUT TO AID IN LOCAL MONEY RAISING

Washington, Sept. 18—(U.P.)—Confidence that public and private agencies throughout the country will be able to take care of eunemployment relief this winter without appropriation of federal funds was expressed today by Walter S. Gifford, director of President Hoover's organization on unemployment relief. He made the statement in opening the meeting here of the committee on mobilization of relief resources headed by Owne D. Young.

Both Gifford and Young emphasized that their purpose is not to raise a national fund, but only to aid local money raising to take care of the unemployed.

"Our aim is to be of wide service to communities in their task of meeting the burden placed upon them by unemployment—whatever that burden may be," Gifford said.

"This organization is not conducting a drive for a national fund. Existing agencies in the United States and the various communities demonstrated effectively last winter their ability to cope with the situation then before them and are planning to do so again. This organization will in no way disturb these activities but, on the contrary, it is designed to be helpful not only to organizations and agencies throughout the country, which are already in existence, but also those now being formed to deal with unemployment this winter."

Young, in a very brief address, emphasized there is to be no campaign for a national fund and explained that communities throughout the country already have perfected plans to raise money, which is to be administered and distributed by these communities themselves.

He said his committee, sixteen members of which attended the session today, would furnish " a national background" for the local campaigns to be staged between Oct. 19 and Nov. 25.

Armed Prisoners Storm Workhouse; 14 Gain Freedom

GUARD AND RING-LEADER OF RIOTING CONVICTS WOUNDED IN EXCHANGE OF SHOTS

Wilmington, Del., Sept. 18.—(U.P.)—Two men, a guard and a prisoner, were shot today when rioting broke out at the New Castle county workhouse, six miles from Wilmington.

Prison officials said 14 prisoners had escaped during the rioting.

The injured were Anthony B. Hayden, guard, and Clarence Cole, convict.

Officials said Cole was the ringleader of the outbreak.

Cole was recaptured outside the prison walls after he had been wounded in the shoulder by a guard. He was serving 18 years for banditry and was brought to the prison a few years ago from Wilmington.

Most of the escaped men were long term prisoners.

Authorities charged a prisoner known as Stillers, also a long termer held for banditry, with Hayden's shooting.

Where the prisoners obtained the pistols and their other weapons was a mystery.

General rioting marked the escape, the most spectacular in the institution's history.

Two escaped convicts were recaptured two hours later several miles from the state penal institution.

INDUSTRIALISTS VOICE APPROVAL OF SWOPE'S PLAN TO AID WORKING MAN

New York, Sept. 18.—(UP)—The "Constitution of American Business" proposed by Gerald Swope, president of the General Electric Company, has met with approval, a survey by the United Press revealed today.

A number of prominent industrialists declined to comment at present, pending further study of the plan. A few voiced opposition and others said they regarded the plan as Utopian. The federal supervision feature was regarded with suspicion by some.

Swope's plan, announced Wednesday night at a dinner of the National Electric Manufacturers' Association, provided that each industry organize a trade association to formulate trade practices, establish standard accounting practices, and work for stabilization of prices.

Labor would be given greater security through workmen's compensation, life and disability insurance, old age pensions, and unemployment insurance. The entire scheme would be under the supervision of a federal board, so that the public's interest might be protected.

Comment was as follows:

Col. Robert Isham Randolph, president of the Chicago Association of Commerce: "The Swope plan is ideal in its broadcast application, tending as it does to make ample provision for vexing indistrial problems. Questions concerning labor, production and stockholders are entirely feasible. But in proposing federal provision of private trade it should be remembered that excessive governmental control tends to lessen individual initiative."

W. D. Lippet, Denver, president of the Great Western Sugar Company: "Arbitrary and artificial control of production and prices, which I understand to be one of the fundamentals of Mr. Scope's plans, has rarely if ever been successful and has many elements of danger. That the essential

ENGLISH BANKERS WARN AGAINST MONEY DEFLATION

NAVY STRIKE AND GENERAL ELECTION RUMORS MAY DRIVE DOWN POUND STERLING

London, Sept. 18.—(U.P.)—Warning that the present grave situation in Great Britian may cause an "alarming fall in the pound sterling" was given the government by the board of governors of the banks of England, the Daily Mail said today.

The precariousness of the exchange situation was said to be mainly the result of the "passive strike" of enlisted men of the Atlantic fleet and rumors of a general election. According to the Daily Mail, officials of the Bank of England requested the government to announce definitely that a general election was not contemplated soon.

A cabinet meeting at which the government was said to have received the views of the Bank of England ended at 11 p. m. last night without an announcement of what took place. It was understood that Prime Minister Ramsay MacDonald urged an early decision for or against a general election.

The Laborite Daily Herald confirmed the Daily Mail's report that a committee of bankers, headed by deputy governor of the Bank of England, Sir Musgrave Harvey, paid an unprecedented visit to MacDonald at the house of commons.

A meeting of leaders of the Liberal party decided unanimously against a general election and instrusted Sir Herbert Camual to inform the cabinet of the decision. The cabinet meeting was the third in two days.

Ships of the Atlantic fleet will reach their home ports Saturday, where they were ordered after the passive mutiny of enlisted men had forced the suspension of high seas maneuvers, with the official intimation that the men who struck against pay cuts will not be prosecuted.

KIDNAPING PLOT FAILS AS VICTIM KILLS ABDUCTORS

FILLING STATION OPERATOR GREETS PURPORTED KIDNAPERS WITH GUN FIRE

Atlanta, Tex., Sept. 18.—(U.P.)—A gun battle with four purported abductors and their intended victim resulted today in the death of three of the supposed kidnapers, wounding of a fourth and the wounding of the victim, J. H. Boyd, 50, filling station operator.

Badly wounded himself, Boyw gasped out the story of how he had frustrated an attempt to kidnap him.

Those dead are Hardy Luce, Rube Billifish, 30, Boyd's stepson, and Early Sullivan. A brother of Early, Bill Sullivan, the fourth purported kidnaper is in a Shreveport, La., hospital.

"One of the men came to my station about 11 last night and said their automobile had run out of gasoline," Boyd said. "I went to the station, got a can of gasoline and drove out on the Shreveport highway with them.

"We came to the automobile and there three men were waiting for us. Two of the men were in the automobile and one was on the road. One of the men grabbed me and struck me over the head. But it didn't knock me unconscious."

Boyd drew his .38 calibre revolver and started shooting four shots rapidly.

Granite Falls, Minn., Sept. 18—(U.P.)—Coroner Oscar M. Olson today expected a verdict in the investigation of the shooting to death of Arlewaine Kittleson, 18, by a posse which mistook the automobile of her escort Clarence Jacoby, 21, Wood Lake, for that of a bandit they were seeking.

Completion of the hearing is expected about 5 p. m. Eight members of a posse which was organized by Arthur Gustafson, filling station attendant to help him pursue a bandit who held him up and escaped with $50 were among the witnesses called before the hearing.

Winkler's trial was set for Oct. 9.

HOME COMMITTEES PLAN RECEPTIONS FOR STATE P. T. A.

PRE-CONVENTION SERVICE IS SCHEDULED FOR OCT. 18; 500 DELEGATES COMING

Progress continues daily in plans for the reception here of more than 500 delegates to the Ninth Annual Convention of The Minnesota Congress of Parents and Teachers to be held in Brainerd October 19, 20 and 21.

Dr. A. K. Cohen reports there will be a pre-convention service of worship at the Washington high school auditorium Sunday evening, Oct. 18 at 7:30 o'clock. This service has been arranged through the cooperation of the local churches.

Dean Coffey of the University of Minnesota will preside at the meeting and Rabbi Minda of Minneapolis will preach the sermon. Mrs. Louis Knudsen, Brainerd, will have charge of the music.

The reception committee is making extensive plans for the first day of the convention. A banquet will be held in the high school gymnasium at 6:15 p. m. that day. Preceding the banquet the reception committee will pay honors to the state and national officers as the delegates and guests arrive to attend the banquet. The personnel of this committee follows: Mrs. W. C. Rasch, chairman; Mr. and Mrs. F. E. Little, Mr. and Mrs. A. Taylor, Mr. and Mrs. John Holvick, Mrs. R. T. Campbell and John Spencer.

A special train and special party arrangements have been made for the delegates to the convntion here via th Northern Pacific railway according to Mrs. E. G. Quamme, transportation chairman for the convention. This is the third time the state delegation has sponsored a special train to the state convention. The thought in making this arrangement is to do the greatest good to the greatest number and "this special train will be the most pleasant, restful and dependable way to travel" said Mrs. Quamme.

A committee has planned surprises for every hour of the trip to and from the convention which will add much to the comfort of the travelers.

UNEMPLOYMENT RELIEF CHAIRMAN OUTLINES PLANS

AIM IS NOT TO CREATE NATIONAL FUND BUT TO AID IN LOCAL MONEY RAISING

Washington, Sept. 18—(U.P.)—Confidence that public and private agencies throughout the country will be able to take care of eunemployment relief this winter without appropriation of federal funds was expressed today by Walter S. Gifford, director of President Hoover's organization on unemployment relief. He made the statement in opening the meeting here of the committee on mobilization of relief resources headed by Owne D. Young.

Both Gifford and Young emphasized that their purpose is not to raise a national fund, but only to aid local money raising to take care of the unemployed.

"Our aim is to be of wide service to communities in their task of meeting the burden placed upon them by unemployment—whatever that burden may be," Gifford said.

"This organization is not conducting a drive for a national fund. Existing agencies in the United States and the various communities demonstrated effectively last wi ter their ability to cope with the situation then before them and are planning to do so again. This organization will in no way disturb these activities but, on the contrary, it is designed to be helpful not only to organizations and agencies throughout the country, which are already in existence, but also those now being formed to deal with unemployment this winter."

Young, in a very brief address, emphasized there is to be no campaign for a national fund and explained that communities throughout the country already have perfected plans to raise money, which is to be administered and distributed by these communities themselves.

He said his committee, sixteen members of which attended the session today, would furnish " a national background" for the local campaigns to be staged between Oct. 19 and Nov. 25.

CONSIDERS OFFER OF BAKERIES TO GIVE BREAD TO UNEMPLOYED

Kansas City, Mo., Sept. 18.—(U.P.)—Daily distribution of from 10,000 to 25,000 loaves of bread baked from flour donated by mills and grain companies, to Kansas City's poor, was under consideration today.

Grain companies, millers, and bakers will cooperate with the Chamber of Commerce and the Kansas City charities organization, giving the grain, and all services necessary for baking and distribution without charge, it was said.

Baking of the bread will be done in the ovens of Bryce B. Smith, mayor of Kansas City, and head of one of the large baking companies.

Call Arizona Board in Foshay Trial

St. Paul, Minn., Sept. 18.—(U.P.)—Indictment of a prominent Minneapolis financier involved in allegedly illegal W. B. Foshay Co. deals, will be asked of a federal grand jury within 30 days, United States Attorney L. L. Drill announced today. The grand jury also will be requested to indict a number of lesser officials of his company.

Minneapolis, Minn., Sept. 18—(U.P.)—Members of the Arizona State Securities Commission which authorized issuing Public Consolidated Corporation stock were called today in the trial of W. B. Foshay and his six associates on charges of using the mails to defraud.

Fred Horowitz, special government prosecutor, said that the state was prepared to show that the Foshay officials obtained all their requests through the Arizona commission. The commissioners were called to substantiate this claim, Horowitz said.

Bank Absolved of Blame in Check Case

St. Paul, Minn., Sept. 18.—(U.P.)—The Federal Reserve Bank of Minneapolis today was absolved of negligence in the collection of $8,442 in checks by a state supreme court decision.

SUGGESTS PRICE FIXING PLAN FOR FARM PRODUCTS

DENUNCIATION OF BANKING SYSTEM ALSO EXPRESSED BY SENATOR NYE

Williston, N. D., Sept. 18.—(U.P.)—A price fixing program for every staple agricultural product for the next three years was advocated today by Senator Gerald P. Nye as a solution for economic depression.

"What if such a program increases the surplus?" the senator asked, "then the greater restoring to agriculture of its buying power and the reviving of industry will absorb or allow the carrying of this surplus."

"Despite the fact that there is an abundance of food, more money than ever before, millions of idle men, plenty of work to be done and ample means to finance it, the coming winter will be one of great hardships," Nye continued.

In the readjustments following the war, Nye explained, the farmers suffered from deflation which forced them to accept lower prices for their products and generally sapping them of their buying power.

"The New York financiers are now beginning to see that we saw 10 or 15 years ago, and even they are now beginning to pay the penalty of the neglect of American agriculture."

Nye said that bad as the agricultural situation is at the present time, farmers are lucky because they are not in the situation that exists in industrial regions where the destitute cannot produce their own food.

Nye denounced the banking system of the United States, declaring that the federal land banks are controlled and their policies directed by private banking interests.

Making her first appearance in the public spotlight as the sweetheart of the "Lone Eagle," Mrs. Anne Morrow Lindbergh was admired by the world because she in turn was loved by the world's most famous individual. Today, however, the young wife occupies a different place in the hearts of millions at home and abroad. She has hewn out a niche all her own in the affections of a host of admirers. Her sweetness of disposition, her unbounded courage and her success in overcoming the aversion of her famous husband to social intercourse being factors that contributed to her triumphal march to world popularity. During the Lindberghs' tour in the Orient, Anne Lindbergh is receiving even warmer acclaim than the Colonel himself, and be it understood that no one is more proud of the esteem in which she is held than the husband that she has—mayhap—ousted from the spotlight.

FULLER TO SPEAK AT NORTHWEST FIRE SCHOOL NEXT WEEK AT U. OF M.

Fire Chief Frank W. Fuller will address 400 fire officials on the working of the Brainerd Volunteer Fire Department next Tuesday at the Northwest Fire School to be held all next week at the Hall of Music, University of Minnesota.

Chief Fuller will describe in detail the conducting of such a fire department. He has been a member of the volunteer fire department for 23 years, being chief the past two years. The address will be listened to with interest by officials in cities of the same size as Brainerd who do not now benefit by the Brainerd Sunday system of fire protection. Fuller will leave Brainerd Sunday returning the following Saturday.

SUGGESTS PRICE FIXING PLAN FOR FARM PRODUCTS

DENUNCIATION OF BANKING SYSTEM ALSO EXPRESSED BY SENATOR NYE

Williston, N. D., Sept. 18.—(U.P.)—A price fixing program for every staple agricultural product for the next three years was advocated today by Senator Gerald P. Nye as a solution for economic depression.

"What if such a program increases the surplus?" the senator asked, "then the greater restoring to agriculture of its buying power and the reviving of industry will absorb or allow the carrying of this surplus."

"Despite the fact that there is an abundance of food, more money than ever before, millions of idle men, plenty of work to be done and ample means to finance it, the coming winter will be one of great hardships," Nye continued.

In the readjustments following the war, Nye explained, the farmers suffered from deflation which forced them to accept lower prices for their products and generally sapping them of their buying power.

"The New York financiers are now beginning to see that we saw 10 or 15 years ago, and even they are now beginning to pay the penalty of the neglect of American agriculture."

Nye said that bad as the agricultural situation is at the present time, farmers are lucky because they are not in the situation that exists in industrial regions where the destitute cannot produce their own food.

Nye denounced the banking system of the United States, declaring that the federal land banks are controlled and their policies directed by private banking interests.

Overcoming Handicap of Famous Husband, She Has, by Daring, Carved Her Own Niche in World Popularity.

HER FIRST MEDAL PRESENTED BY JAPANESE AERO SOCIETY.

ANNE LINDBERGH - FLIER

AS GUEST AT TOKIO.

Making her first appearance in the public spotlight as the sweetheart of the "Lone Eagle," Mrs. Anne Morrow Lindbergh was admired by the world because she in turn was loved by the world's most famous individual. Today, however, the young wife occupies a different place in the hearts of millions at home and abroad. She has hewn out a niche all her own in the affections of a host of admirers. Her sweetness of disposition, her unbounded courage and her success in overcoming the aversion of her famous husband to social intercourse being factors that contributed to her triumphal march to world popularity. During the Lindberghs' tour in the Orient, Anne Lindbergh is receiving even warmer acclaim than the Colonel himself, and be it understood that no one is more proud of the esteem in which she is held than the husband that she has—mayhap—ousted from the spotlight.

Mississipplans Harvest Wheat

Gangdom Practices Revealed by Attorney

Los Angeles, Cal., Sept. 18.—(U.P.)—A tale of terrorism in which gangsters of the band headed by the late Arnold Rothstein literally hounded their victim to death, was revealed today by district attorney, Buron Fitts.

When their original victim, Leo P. Bergin, former president of the Los Angeles Soap Company died in a hospital here last May after a nervous breakdown, the gangsters continued their efforts at extortion upon his family, Fitts declared.

Women Fliers Announce Cross-Country Flight

Los Angeles, Sept. 18.—(U.P.)—Two women fliers, one a veteran and the other a comparative novice, laid plans today for a trans-continental speed flight in an attempt to beat the women's record of 13 hours held by Ruth Nichols, of Rye, N. Y.

The women are Mrs. Jessie Keith-Miller, famed for her London to Australia hop, and previous to Miss Nichols, holder of the trans-continental record for her sex, and Miss Mary Adams, New York musical comedy actress.

Deerwood Protests Being Left Out of T. H. No. 2 Route

APPEALS TO STATE COMMISSIONER FOR RELIEF IN MATTER

BABCOCK PROMISES TAR ROAD INTO TOWN BUT CITIZENS NOT SATISFIED

Making a last minute fight to have the new route of Trunk Highway No. 2 pass through their town, citizens of Deerwood have petitioned State Commissioner of Highways .C M. Babcock to order the Minnesota Highway Department to reconsider the route decided upon.

The citizens have not gone as far as to serve a restraining order to prohibit further work on the highway at that point but the highway department has considered the plea and temporarily has abandoned work at that point of the project. The men engaged however have been placed to work on another section of the highway.

The highway department's plans are to skirt Deerwood about three quarters of a mile, thus avoiding a number of treacherous curves.

It was reported here from authoritative source that Mr. Babcock has promised Deerwood a branch road of bituminous tar treatment. Deerwood, however, does not favor this plan but will accept it with thanks if the town is unsuccessful in gaining its fight to be included on the direct route of the highway.

Woodrow Busy Cutting Fine Stands of Corn

Woodrow: The cattle of Oak Lawn were found to be free from tuberculosis. Only one case in Nokay Lake township was reported to date.

Misses Lucile and Evelyn Dullum were home from Riverton over the week end.

Mrs. Dullum is suffering from a carbuncle under her left arm.

Farmers are busy cutting corn. Some have a good stand for this region.

W. H. Johns of Ironton called at J. P. Dullum's Sunday.

Miss Lottie Britton had the misfortune to fall while at school and break off one tooth.

Miss Gladys Olson is living with her sister, Mrs. Robt. Britton, at Leon Britton's.

Mrs. Dullum called on Mrs. Ed Norgard recently.

There are fourteen children of this district attending school elsewhere. Only two little girls attend via the north side bus. Is it wise to use public money so?

The team belonging to John Shuffelen left the hired man in the field and made a home run. Not much damage done.

The Sagamore mine at Riverton started up again.

Miss Evelyn Dullum received six prizes instead of four on her canning project at the county fair. Strange to relate she won nothing on the same six jars at the Ironton fair.

THREATENS TRAIN CREWS WITH ARREST FOR SPEEDING

Sunbury, Pa., Sept. 18—(UP)—Crews of Pennsylvania railroad trains passing through the center of Sunbury are threatened with arrest on charges of "speeding" and "reckless driving."

Complaints of residents that trains were operated at a speed of "45 miles or more" through the city led authorities to threaten arrests unless the trains were operated more carefully.

Railroad officials promised cooperation to reduce reckless train operation.

IMPROVED METHOD OF ROASTING COFFEE IMPRESSES CRITICS

Controlled Roasting Creates Definitely Superior Flavor in Hills Bros. Coffee

Critical people, who search for a perfect coffee, usually come to their journey's end when they taste Hills Bros. Coffee! It has a flavor no other coffee has—a flavor none can equal! This is because of Controlled Roasting—Hills Bros.' patented process. It keeps Hills Bros. Coffee free from the unsatisfactory flavor-results so often secured with ordinary, bulk methods.

As the accuracy of the hour-glass depends upon an even, continuous flow . . . a little at a time . . . so the matchless, unvarying flavor of Hills Bros. Coffee is produced by this patented process that roasts evenly, continuously . . . *a little at a time.*

Here's what happens: every berry is roasted to the right degree. None is underdone, none is overdone. As a result, Hills Bros. Coffee has the perfect flavor that never varies! Drink Hills Bros. today. You'll delight in its savory flavor. And that flavor is always the same—it never varies!

Hills Bros. Coffee is packed in vacuum cans. Air, which destroys the flavor of coffee, is removed and kept out of these cans. Ordinary, "air-tight" cans won't keep coffee fresh. But Hills Bros. Coffee is always fresh! Order some today. Ask for it by name, and look for the Arab trade-mark on the can.

Sparring for Position---

Politicians play their game every day in the year, but are openly active only as the time for reaping the harvest approaches.

The campaign for president is opening up and both sides are seeking advantage wherever they can find it, Democrats professing to doubt that President Hoover will be renominated. It is a foregone conclusion that Republicans will win or lose with Hoover, while Democrats will probably make their choice from three or four members of their party who are presumed to have great strength.

At the present time, Gov. Roosevelt has the lead among Democrats, but inasmuch as a two-thirds majority is required in a Democratic convention his very strength may serve to unite other candidates against him until he is eliminated.

Hoover will probably run on a mildly dry platform and the Democratic nominee will slip about on a more or less wet program. Both parties know the futility of trying to repeal the present law, even though large numbers in each party believe the prohibitory law should either be repealed or radically amended.

Nearly all eastern states favor liquor while southern voters are dry largely because they do not want the negro to have access to liquor. The south has heretofore furnished the Democratic votes in the electoral college, but eastern leaders of the party seem willing to trade southern support for the chance they may have of corraling more votes by an appeal to the eastern wets, and while prohibition is bound to be one of the leading issues in 1932 it may be dwarfed by the cry of depression and its cure. There is much water to pass under the bridge before campaign issues are to be determined, but two of the big planks in the platform of both major parties will concern themselves with the prohibition amendment and a panacea for bad times.

Stressing Safeguards---

The Minnesota highway commission is stressing safety first programs along those sections where it has control as well as sending out warnings to those who use the side roads. The campaign is made at this time especially to protect school children and every person is urged to lend their best endeavors to the end that accidents be diminished to the vanishing point. Parents and teachers are urged to talk to the children frequently about the danger there is from forgetting, for even an instant, that a fast traveling auto may appear almost without warning and kill or maim some member of their party. Often children get so intensely interested in their play that they run into the street or highway with little thought of the hazard which comes from such action, and motorists should use every precaution at all times to avoid such accidents, but especial care should govern his actions whenever he approaches a school house. Danger lurks wherever roads run and children congregate so that it is the duty of every driver to give special heed whenever he approaches a school building. Children should also bear their part of the responsibility and should never ride on running boards, crowd the car so that the driver cannot have free use of his arms or feet, jump on running boards or ask for rides from passers-by. In very congested traffic it is highly advisable that smaller children be aided in crossing the roads or inter-sections.

Building Roads in Winter---

Winter building of roads will go forward in the months to come as fast as the elements will permit, the need for work among the laboring men being recognized by those in authority. Even if the same return is not possible for money expended in winter road building public sentiment will endorse the stand taken by engineers and those in charge of highway development. In Illinois it is proposed to expend more than $10,000,000 in expanding the present road system the coming winter, a program which will give employment to probably 13,000 men. Every community will be deluged this winter with people who must be assisted through several months, most of those applying for help being wholly deserving, and it is highly to be desired that work rather than charity be given these unfortunates. Road building in Minnesota during the real winter months is a form of industry which cannot be followed to any great extent, but there should be other activities to provide employment for those who want to help themselves rather than be a charge on the community. Thoughtful people who have odd jobs to do can be helpful in assisting the deserving man who wants to make his own way; let each one do what he can in this time of temporary stress.

A two-page confidential letter from Democratic national headquarters is devoted to telling of the weaknesses of President Hoover and the opposition which will confront him when he seeks renomination. Even mediocre politicians should know that Hoover will be renominated; it is idle for Raskob's hired men to argue otherwise. To be effective and earn their salary they should be devoting their attention to methods of defeating the president with a candidate of their own party. The casual observer is led to believe that the fight between the two parties at the next election will be a close one if both parties can prevent a split in their own ranks.

Gov. Olson seems to be having the usual troubles with those who claim to have been instrumental in electing him to office and some of whom he has been able to place in lucrative positions. The fellows who furnish the fuel for a campaign are always eager for their pay and just now a controversy waxes high over the state printing management. The average politician, be he Republican, Farm-Labor, Democrat or otherwise is seldom a modest violet when he comes to relating his own worth.

Who struts across the front page of our dailies more often than Aimee Semple McPherson? Only a few days since the papers carried a long story of Aimee's marriage to her choir master and now that same choir master is being sued for a large sum as heart balm by another lady with whom he is said to have been quite friendly. Aimee dismisses the matter with the statement that "our pasts are our own; we'll face the future instead." Wise Aimee.

Attendance at county fairs this year exceed those of previous similar gatherings, many counties reporting unusual gains. The exhibits have been generally pleasing in every department.

Volunteers Quench Fire on Lister Farm

Daggett Brook—Mr. and Mrs. A. F. Claus of Fort Ripley and Mrs. Claus' mother, Mrs. McCorkle visited at the Richolson home last Sunday.

Francis Maddock, who has been visiting at the Clarence Engelhart home for some time left for his home in Oregon for the winter.

A fire broke out in the Lister place in Platte Lake last Thursday evening and for a while threatened to burn the hay on the meadows near. It was finally brought under control by volunteers though it is being watched closely as the peat is burning. The fire evidently was set by some one cutting a bee tree.

Clifford Krakalu has been filling James' silo lately.

There was a good crowd at the party at Britton's Saturday night and all report a fine time. The party was in the nature of a surprise on Tom Whitman, it being his birthday.

The Farm Bureau is to hold its meeting next Saturday night with the 4-H club in charge of the program.

The recent rain was much appreciated as it helped to put out the fires that were starting.

INDUSTRIALISTS VOICE APPROVAL OF SWOPE'S PLAN TO AID WORKING MAN

(Continued from Page 1)

features of the plan could be effectively applied to the American beet sugar industry dominated by foreign production. Furthermore, in spite of the fact that the beet sugar business as a whole in this country is today being conducted without profit, most of the companies are carrying on and within the industry there is no serious unemployment problem."

W. C. McFarlane, president of the Minneapolis Manufacturers' Association: "Swope's plan can be considered with more equanimity by concerns with good financial reserves than those facing receiverships. Ian is step in right direction but will need amendments to law before can obtain co-ordination that will lead us out of present depressino."

Roger W. Babson, Boston, business statistician: "I believe in the principles of the Swope plan. Earnest effort should be made to work out the practical details. As an example of industrial leadership it is most significant and encouraging that a man of Mr. Swope's standing has come forward with such proposals.

A. H. Bailey, Dallas, Tex., president of Higginbotham-Bailey-Logan Company: "I cannot believe that any good can come of putting industry under federal supervision."

J. Ben Critz, executive secretary of Dallas, Tex., Chamber of Commerce: "If plans does not crush individual initiative, I am for it."

J. Perry Burrus, Dallas, former director, U. U. Chamber of Commerce: "I believe the plan would apply largely to the eastern industrial centers and would have little effect on Texas."

J. C. Hall, president of Hall Brothers, Kansas City, stationery manufacturers: "The Swope plan is thoroughly interesting and contains splendid ideas. I particularly like the ideas of old age pensions, unemployment, disability, and life insurance. It seems extremely doubtful, however, that the plan could be effected in most industries without unfairness to laborer, employer, or public. It would be ideal if it could be worked. I see no hope for bettering the immediate situation by this plan but it might hold hope for the future."

Dr. Nicholas Murray Butler, president of Columbia university: "The plan in its essentials, it seems to me, offers a very practical suggestion which ought to be followed up promptly."

Walter Lippman, prominent editorial writer, New York: "I do not know whether our political system is flexibleenough to permit one industry to offer itself up for a public demonstration; but it would be a highly enlightened proceeding if, by some kind of treaty between the electrical industry and the government the xperiment could be made. It would teach us more than we can hope to learn any other way."

Volunteers Quench Fire on Lister Farm

Daggett Brook—Mr. and Mrs. A. F. Claus of Fort Ripley and Mrs. Claus' mother, Mrs. McCorkle visited at the Richolson home last Sunday.

Francis Maddock, who has been visiting at the Clarence Engelhart home for some time left for his home in Oregon for the winter.

Gene Scribner called on some of his neighbors last Sunday.

Mrs. Thon and Mrs. Franzen called at Waldeen's last Monday.

Mr. and Mrs. Ira Ringering and Bonny Jean visited with friends and relatives last Saturday.

Ruby Engelhart returned to Maplewood Academy at Hutchinson, Minn., last Tuesday to resume her studies. She was accompanied by her mother, Mrs. Clarence Engelhart and her uncle, Jay Ringering.

Elmer Raihl is on the sick list at present. We hope he soon get better.

A fire broke out in the Lister place in Platte Lake last Thursday evening and for a while threatened to burn the hay on the meadows near. It was finally brought under control by volunteers though it is being watched closely as the peat is burning. The fire evidently was set by some one cutting a bee tree.

Clifford Krakalu has been filling James' silo lately.

There was a good crowd at the party at Britton's Saturday night and all report a fine time. The party was in the nature of a surprise on Tom Whitman, it being his birthday.

The Farm Bureau is to hold its meeting next Saturday night with the 4-H club in charge of the program.

The recent rain was much appreciated as it helped to put out the fires that were starting.

INDUSTRIALISTS VOICE APPROVAL OF SWOPE'S PLAN TO AID WORKING MAN

(Continued from Page 1)

features of the plan could be effectively applied to the American beet sugar industry dominated by foreign production. Furthermore, in spite of the fact that the beet sugar business as a whole in this country is today being conducted without profit, most of the companies are carrying on and within the industry there is no serious unemployment problem."

W. C. McFarlane, president of the Minneapolis Manufacturers' Association: "Swope's plan can be considered with more equanimity by concerns with good financial reserves than those facing receiverships. Ian is step in right direction but will need amendments to law before can obtain co-ordination that will lead us out of present depressino."

Roger W. Babson, Boston, business statistician: "I believe in the principles of the Swope plan. Earnest effort should be made to work out the practical details. As an example of industrial leadership it is most significant and encouraging that a man of Mr. Swope's standing has come forward with such proposals.

A. H. Bailey, Dallas, Tex., president of Higginbotham-Bailey-Logan Company: "I cannot believe that any good can come of putting industry under federal supervision."

J. Ben Critz, executive secretary of Dallas, Tex., Chamber of Commerce: "If plans does not crush individual initiative, I am for it."

J. Perry Burrus, Dallas, former director, U. U. Chamber of Commerce: "I believe the plan would apply largely to the eastern industrial centers and would have little effect on Texas."

J. C. Hall, president of Hall Brothers, Kansas City, stationery manufacturers: "The Swope plan is thoroughly interesting and contains splendid ideas. I particularly like the ideas of old age pensions, unemployment, disability, and life insurance. It seems extremely doubtful, however, that the plan could be effected in most industries without unfairness to laborer, employer, or public. It would be ideal if it could be worked. I see no hope for bettering the immediate situation by this plan but it might hold hope for the future."

Dr. Nicholas Murray Butler, president of Columbia university: "The plan in its essentials, it seems to me, offers a very practical suggestion which ought to be followed up promptly."

Walter Lippman, prominent editorial writer, New York: "I do not know whether our political system is flexibleenough to permit one industry to offer itself up for a public demonstration; but it would be a highly enlightened proceeding if, by some kind of treaty between the electrical industry and the government the xperiment could be made. It would teach us more than we can hope to learn any other way."

New York, Sept. 17—(U.P.)—The 1931 major league baseball season is over insofar as competition for the championships is concerned but several interesting fights still are in progress.

In the American league only the league leading Philadelphia Athletics and the fourth place Cleveland Indians are certain to retain their present berths. Washington and New York are staging a duel for runner-up honors and at present are tied for second place. Four other clubs, St. Louis, Detroit, Boston and Chicago are bunched within two and one-half games in the second division with any one of them likely to finish at the top of second division or in the cellar.

Competition in the National league is only a little more settled with the first place St. Louis Cards, second place Giants and eigth place Cincinnati Reds the only clubs unlikely to be ousted from their berths. Brooklyn, fighting to take third place from Chicago, is itself threatened by the fifth place Pittsburgh Pirates, while Boston and Phildaelphia are competing for sixth place.

The New York Yanks tied Washington for second place in the American league yesterday by taking a double bill from St. Louis, 17 to 0 and 6 to 1. Ruth and Dickey pounded out two homers apiece.

Art Herring pitched Detroit to a 3 to 1 victory over Washington, allowing only 9 hits.

Boston dropped into a tie with Chicago for eighth place by dividing a doubleheader with Cleveland. Moore pitched the Red Sox to a 9 to 2 triumph in the opener but Jablonowski won a pitching duel from Milt Gaston to give Cleveland the second tilt, 2 to 1. Earl Webb, Boston outfielder, hit two doubles to set a new majojr league record of 5 in a single season.

After throwing away a two-run lead in the first half of the ninth inning, the Chicago Cubs came back to score in their own half and defeated Brooklyn, 4 to 3.

Pittsburgh and Boston divided a doubleheader. Tom Zachary outpitched Bill Barris to give the Braves the first game, 1 to 0, but the Pirates came back to take the second, 4 to 2.

Philadelphia broke a ten game losing streak to defeat Cincinnati, 8 to 3.

St. Louis, with nothing at stake, lost a 7 to 2 verdict to the New York Giants.

ST. PAUL CHALKS UP 100TH WIN WITH BETTS IN FORM

K. C. TAKES STRANGLE HOLD ON SECOND PLACE BY DEFEATING MILWAUKEE TWICE

(By United Press)

St. Paul, American association champions, won its 100th game of the season when it defeated Minneapolis, 10 to 0. Betts allowed only four hits in pitching the shutout game.

Kansas City tightened the hold on second place when it won both ends of a doubleheader while Indianapolis, in third place, won only one game. Milwaukee was the Kansas City victim, losing its games 10 to 3 and 2 to 1.

Indianapolis defeated Louisville 2 to 1.

Columbus and Toledo did not play yesterday.

BRAINERD CHEERS BULLET JOE BUSH TO TRY COMEBACK

REPORTS REACH HOME THAT FAMOUS SON IS CONSIDERING BETTER OFFERS IN BALL

Is Bullet Joe Bush, a Brainerd pride, trying a comeback?

If he is, the former Brainerd boy and major league hurling ace, will get the whole-hearted support of Brainerd in his climb up the ladder again.

For years Bush knocked the fans dizzy with his dazzling display of pitching in the majors. He a ways maintained that his home was in Brainerd and countless stories carried that information to every part of the country.

And now it comes to the attention of Brainerd fans that Bullet Joe is considering offers to advance to higher company as an outfielder after playing sensational ball the last few years as right fielder for his Allentown Buffs in the Eastern League.

Whether uBsh makes the grade or not Brainerd will back him to the limit. He is in the Brainerd Hall of Fame and will remain there until the hair of the grand-children of the younger generation of Brainerd turns gray.

PURDUE'S HOPES BOLSTERED BY DIG SQUAD OF 79

RAIN MARS OPENING OF TRAINING GRIND; 655 SEEK PLACES OF BIG TEN TEAMS

Chicago, Sept. 18.—(U.P.)—With 655 players in the ten respective training camps, Western conference football practice was under way today in earnest.

Rain marred the opening day's training at most schools yesterday, but all coaches kept their squads at work despite the weather.

The following list shows the number of candidates at each school and the number of major letter men back:

Ghoe6k	ETAOI SHRDL CMFW Candidates	Letter Men
Indiana	85	13
Purdue	79	21
Ohio State	78	16
Minnesota	76	17
Illinois	70	12
Michigan	57	17
Wisconsin	59	16
Northwestern	53	8
Iowa	49	12
Chicago	47	7

Most of the players reported in good condition and at least three coaches, Dick Hanley at Northwestern, Bob Zuppke at Illinois and Burt Ingwerson at Iowa plan to hold scrimmage by the end of the week.

Among the early casualties were Al Hall, Illinois sophomore fullback who was injured tackling a dummy, and Fred Ratterman of Cincinnati, a strong backfield candidate at Michigan who suffered a knee injury. Both, however, are expected to be back in uniform by tomorrow.

BURDICK WILL BE AVAILABLE FOR PLAY AGAIN SOON

LINE AVERAGING 200 POUNDS PARADES FOR COACH CRISLER YESTERDAY

(By United Press)

Minneapolis, Minn., Sept. 18—(U.P.)—Quentin Burdick, first-string blocking back, will not be lost to the Minnesota team as at first expected after an attack of appendicitis. A quick change for the better will allow him to leave the hospital tomorrow and return to the squad. A first-string line tried out yesterday by Coach Fritz Crisler averaged 200 pounds.

Evanston, Ill., Sept. 18—(U.P.)—Accurate passing by Pug Rentner and general all-around work by Ken Meenan, sophomore fullback candidate, featured Northwestern's first official scrimmage. Meenan gained almost at will through the second team line.

Bloomington, Ind., Sept. 18—(U.P.)—With the first game only eight days away, Coach E. C. Hayes drilled his University of Indiana players in offensive formations today in an effort to get ready for Ohio university, boasting a string of 19 straight victories.

Campaign, Ill., Sept. 18—(U.P.)—Although Coach Robert C. Zuppke has relegated most of last year's veterans to the second and third teams, many of them are showing improvement and may win back their varsity jobs before the start of the season. Four sophomores fromed the first-string backfield in yesterday's practice.

Ann Arbor, Mich., Sept. 18—(U.P.)—Coach Harry Kipke's search for a punter to replace Jcak Wheeler, last year's kicker, has turned up a fine prospect in Jack Heston, second son of Willie Heston, to try for the Michigan football team. Heston is being groomed for a regular backfield berth in his first year on the squad. Willie Heston, Jr., a letter man last year, is back on the squad this year.

Iowa City, Iowa, Sept. 18—(U.P.)—Jim Graham has temporarily replaced Laws as first-string quarterback on the U. of Iowa team. Capt. Oliver Sansen, fullback, and Swaney, an end, are nursing slight injuries.

Columbus, O., Sept. 18—(U.P.)—Coach Sam Williamson expected to pick the tentative first squad of Ohio State players today. Because of the extreme heat the Ohio State squad has been retarded in its practice.

Madison, Wis., Sept. 18—(U.P.)—After three days of practice, Schneller and Rebholz have demonstrated they are the best punters and passers and Lovshin and Thurner the best pass-receiving ends of the U. of Wisconsin squad. The first scrimmage will be held Saturday.

Chicago, Sept. 18—(U.P.)—Coach A. A. Stagg's squad was minus another player today. Joe Temple, veteran back, fell through an open man-hole while walking under the stands at Stagg field yesterday. X-rays have been made to determine the extent of his injuries.

South Bend, Ind., Sept. 18—(U.P.)—One of the principal problems facing Coach Hunk Anderson these days is to find a successor to Marty Brill, Notre Dame right halfback last year. Joe Sheeketski had an advantage over the other blocking backs in yesterday's drill. Carl Cronin and Ray Brancheau, a sophomore, also made favorable impressions. The first string backfield yesterday was composed of Emmett Murphy, quarterback, M. Schwartz, and Skeeketski, halfbacks, and Lukats, fullback.

Layayette, Ind., Sept. 18—(U.P.)—Abundant backfield material may cause Coach Noble Kizer of Purdue to emply two sets of backs this season. One outfit, composed entirely of seniors, was made up of White, Purvis, Risk and Yunevich. The other was made up of Horstman, Hecker, Carter and Pardonner, the last three sophomores.

Minneapolis, Minn., Sept. 18—(U.P.)—Although handicapped in picking a tentative first string eleven by the uncertainity of the return of his veteran tackles, Cno Eklund, Augsburg football coach today continued his blocking and tackling drills. The addition of Ray Eklund to the coaching staff was expected to aid his brother in developing a strong team.

Moorhead, Minn., Sept. 18—(U.P.)—Long scrimmages of the past week will be tapered off today with light passing and blocking drills at Concordia college where Coach Frank Cleve is pointing his team for a game tonight with North Dakota State College. The Concordia team as in past years will be outweighed by the Bison.

St. aPul, Minn., Sept. 18—(U.P.)—Coach Joe Boland and his St. Thomas College gridders went through a strenous practice today in preparatino for their opening game next Friday against the Moorhead State Teachers College team.

Easy Schedule Presages Good Season for Michigan Eleven

Editor's Note—Following is the second of a series on Big Ten football prospects. Today, Michigan.

Chicago, Sept. 18—(U.P.)—All things considered, Michigan appears to have the best chance of any Big Ten team of going through the 1931 season without losing a game.

Summarized briefly Michigan's prospects follow:

17 out of 23 letter men back.

21 sophomores comprising some of best material in ten years.

Made to order schedule, with only two games away from Ann Arbor.

Michigan, which tied Northwestern for the Big Ten last year, does not meet either Northwestern or Purdue, regarded as the other two leading contenders for the 1931 championship.

The Wolverines conference games are against Chicago, Ohio State, Illinois, Indiana and Minnesota and only intersectional game against Princeton.

If Harry Kipke, youngest coach in the Big Ten, could bring last year's eleven, handicapped by injuries and inexperience, through with eight victories and a scoreless tie, he ought to be able to pilot this year's outfit to an undefeated season.

Michigan's sophomores promise to crowd quite a number of last year's regulars out of the picture. Outstanding of the youngsters are Ted Petoskey, a big end of the Oosterbaan type; Chuck Bernard, center, who weighs 215 and is over 6 feet tall; Harry Stinesspring, 140-pound quarterback who is a dangerous pass receiver; J. Kowalik, a rugged guard; Herman Everhardus, a great passer and kicker; Stan Fay, Fred Ratterman and Jack Heston, a trio of brilliant backs.

Everhardus, Fay and Heston, second son of Willie Heston of All-Time All-American fame and recognized as a much better player than his brother, Willie, Jr., promise to see plenty of action in the Michigan backfield.

Kipke has five letter men back for ends. With Petoskey certain to win one end position, Kipke probably will shift some of his other ends to other positions. The pick of the letter men appear to be Bill Hewitt, who was out with a broken ankle last year, and Ivan Williamson.

Howard Auer and Tom Samuels, both regular tackles last year, are back. Omer La Jeunesse, regular last year, Leslie Douglas, reserve, Jay Sikkenga, a made over end, John Kowalik and Jim Conover, are the leading guard candidates.

Doc Morrison, all-conference center last year, rounds out a line that promises to play havoc with many a rival's offensive this season.

The Wolverines have two veteran quarterbacks in Harry Newman, all Big Ten player last year, and Zit Tessmer, who is in much better physical shape than a year ago, and two good youngsters in Stinespring and Donald Beck, sophomores.

Capt. Ducky Simrall and Jack Wheeler, regular halfbacks, last year are missing but there are better men to take their places. Halfbacks who won letters last year and are back include Willie Heston, Harry Eastman and Mutt De Baker.

PAIRED WITH TOM CREAVY, 22-YEAR-OLD ALBANY PRO, IN SEMI-FINALS

Wannamoisett Country Club, Rumford, R. I., Sept. 18.—(U.P.)—Gene Sarazen, swarthy little Italian who has been winning championships for more than a decade, was the only surviving member of golfdom's "old guard" as the Professional Golfers Association championship moved into the semi-final round today.

Sarazen, who first gained national prominence by winning the 1922 national open and the 1922 and 1923 P. G. A. titles, was accompanied into the semi-finals by three players who never before have survived the early rounds of a P. G. A. tourney.

The baby of the group, Tom Creavy, 22-year-old professional from Albany, N. Y., was scheduled to play Sarazen in the semi-finals today. The other semi-final will pair Billy Burke, national open champion, and Densmore Shute of Columbus, O., who turned professional only four years ago when he was 22.

Sarazen, who staged a strong comeback yesterday afternoon to come from from behind to defeat Horton Smith, 5 and 4, was a heavy favorite to reach the finals. Creavy showed good golf in defeating Cyril Walker, one-time national open champion, by a 3 and 1 score, but does not appear to have the game to stop Sarazen.

Perry admitted he will confer with John McGraw, manager and part owner of the Giants, in Chicago Monday regarding sale of the New York franchise. He had announced previously that he planned to buy a major league franchise and hoped to make a deal with a national league club.

New York, Sept. 17—(U.P.)—The 1931 major league baseball season is over insofar as competition for the championships is concerned but several interesting fights still are in progress.

In the American league only the league leading Philadelphia Athletics and the fourth place Cleveland Indians are certain to retain their present berths. Washington and New York are staging a duel for runner-up honors and at present are tied for second place. Four other clubs, St. Louis, Detroit, Boston and Chicago are bunched within two and one-half games in the second division with any one of them likely to finish at the top of second division or in the cellar.

Competition in the National league is only a little more settled with the first place St. Louis Cards, second place Giants and eigth place Cincinnati Reds the only clubs unlikely to be ousted from their berths. Brooklyn, fighting to take third place from Chicago, is itself threatened by the fifth place Pittsburgh Pirates, while Boston and Phildaelphia are competing for sixth place.

The New York Yanks tied Washington for second place in the American league yesterday by taking a double bill from St. Louis, 17 to 0 and 6 to 1. Ruth and Dickey pounded out two homers apiece.

Art Herring pitched Detroit to a 3 to 1 victory over Washington, allowing only 9 hits.

Boston dropped into a tie with Chicago for eighth place by dividing a doubleheader with Cleveland. Moore pitched the Red Sox to a 9 to 2 triumph in the opener but Jablonowski won a pitching duel from Milt Gaston to give Cleveland the second tilt, 2 to 1. Earl Webb, Boston outfielder, hit two doubles to set a new majojr league record of 5 in a single season.

After throwing away a two-run lead in the first half of the ninth inning, the Chicago Cubs came back to score in their own half and defeated Brooklyn, 4 to 3.

Pittsburgh and Boston divided a doubleheader. Tom Zachary outpitched Bill Barris to give the Braves the first game, 1 to 0, but the Pirates came back to take the second, 4 to 2.

Philadelphia broke a ten game losing streak to defeat Cincinnati, 8 to 3.

St. Louis, with nothing at stake, lost a 7 to 2 verdict to the New York Giants.

K. C. TAKES STRANGLE HOLD ON SECOND PLACE BY DEFEATING MILWAUKEE TWICE

(By United Press)

St. Paul, American association champions, won its 100th game of the season when it defeated Minneapolis, 10 to 0. Betts allowed only four hits in pitching the shutout game.

Kansas City tightened the hold on second place when it won both ends of a doubleheader while Indianapolis, in third place, won only one game. Milwaukee was the Kansas City victim, losing its games 10 to 3 and 2 to 1.

Indianapolis defeated Louisville 2 to 1.

Columbus and Toledo did not play yesterday.

BRAINERD CHEERS BULLET JOE BUSH TO TRY COMEBACK

REPORTS REACH HOME THAT FAMOUS SON IS CONSIDERING BETTER OFFERS IN BALL

Is Bullet Joe Bush, a Brainerd pride, trying a comeback?

If he is, the former Brainerd boy and major league hurling ace, will get the whole-hearted support of Brainerd in his climb up the ladder again.

For years Bush knocked the fans dizzy with his dazzling display of pitching in the majors. He always maintained that his home was in Brainerd and countless stories carried that information to every part of the country.

And now it comes to the attention of Brainerd fans that Bullet Joe is considering offers to advance to higher company as an outfielder after playing sensational ball the last few years as right fielder for his Allentown Buffs in the Eastern League.

Whether uBsh makes the grade or not Brainerd will back him to the limit. He is in the Brainerd Hall of Fame and will remain there until the hair of the grand-children of the younger generation of Brainerd turns gray.

PURDUE'S HOPES BOLSTERED BY DIG SQUAD OF 79

RAIN MARS OPENING OF TRAINING GRIND; 655 SEEK PLACES OF BIG TEN TEAMS

Chicago, Sept. 18.—(U.P.)—With 655 players in the ten respective training camps, Western conference football practice was under way today in earnest.

Rain marred the opening day's training at most schools yesterday, but all coaches kept their squads at work despite the weather.

The following list shows the number of candidates at each school and the number of major letter men back:

Ghoe6k ETAOI SHRDL CMFW

	Candidates	Letter Men
Indiana	85	13
Purdue	79	21
Ohio State	78	16
Minnesota	76	17
Illinois	70	12
Michigan	57	17
Wisconsin	59	16
Northwestern	53	8
Iowa	49	12
Chicago	47	7

Most of the players reported in good condition and at least three coaches, Dick Hanley at Northwestern, Bob Zuppke at Illinois and Burt Ingwerson at Iowa plan to hold scrimmage by the end of the week.

Among the early casualties were Al Hall, Illinois sophomore fullback who was injured tackling a dummy, and Fred Ratterman of Cincinnati, a strong backfield candidate at Michigan who suffered a knee injury. Both, however, are expected to be back in uniform by tomorrow.

BURDICK WILL BE AVAILABLE FOR PLAY AGAIN SOON

LINE AVERAGING 200 POUNDS PARADES FOR COACH CRISLER YESTERDAY

(By United Press)

Minneapolis, Minn., Sept. 18—(U.P.)—Quentin Burdick, first-string blocking back, will not be lost to the Minnesota team as at first expected after an attack of appendicitis. A quick change for the better will allow him to leave the hospital tomorrow and return to the squad. A first-string line tried out yesterday by Coach Fritz Crisler averaged 200 pounds.

Evanston, Ill., Sept. 18—(U.P.)—Accurate passing by Pug Rentner and general all-around work by Ken Meenan, sophomore fullback candidate, featured Northwestern's first official scrimmage. Meenan gained almost at will through the second team line.

Bloomington, Ind., Sept. 18—(U.P.)—With the first game only eight days away, Coach E. C. Hayes drilled his University of Indiana players in offensive formations today in an effort to get ready for Ohio university, boasting a string of 19 straight victories.

Campaign, Ill., Sept. 18—(U.P.)—Although Coach Robert C. Zuppke has relegated most of last year's veterans to the second and third teams, many of them are showing improvement and may win back their varsity jobs before the start of the season. Four sophomores fromed the first-string backfield in yesterday's practice.

Ann Arbor, Mich., Sept. 18—(U.P.)—Coach Harry Kipke's search for a punter to replace Jcak Wheeler, last year's kicker, has turned up a fine prospect in Jack Heston, second son of Willie Heston, to try for the Michigan football team. Heston is being groomed for a regular backfield berth in his first year on the squad. Willie Heston, Jr., a letter man last year, is back on the squad this year.

Iowa City, Iowa, Sept. 18—(U.P.)—Jim Graham has temporarily replaced Laws as first-string quarterback on the U. of Iowa team. Capt. Oliver Sansen, fullback, and Swaney, an end, are nursing slight injuries.

Columbus, O., Sept. 18—(U.P.)—Coach Sam Williamson expected to pick the tentative first squad of Ohio State players today. Because of the extreme heat the Ohio State squad has been retarded in its practice.

Madison, Wis., Sept. 18—(U.P.)—After three days of practice, Schneller and Rebholz have demonstrated they are the best punters and passers and Lovshin and Thurner the best pass-receiving ends of the U. of Wisconsin squad. The first scrimmage will be held Saturday.

Chicago, Sept. 18—(U.P.)—Coach A. A. Stagg's squad was minus another player today. Joe Temple, veteran back, fell through an open man-hole while walking under the stands at Stagg field yesterday. X-rays have been made to determine the extent of his injuries.

South Bend, Ind., Sept. 18—(U.P.)—One of the principal problems facing Coach Hunk Anderson these days is to find a successor to Marty Brill, Notre Dame right halfback last year. Joe Sheeketski had an advantage over the other blocking backs in yesterday's drill. Carl Cronin and Ray Brancheau, a sophomore, also made favorable impressions. The first string backfield yesterday was composed of Emmett Murphy, quarterback, M. Schwartz, and Skeeketski, halfbacks, and Lukats, fullback.

Layayette, Ind., Sept. 18—(U.P.)—Abundant backfield material may cause Coach Noble Kizer of Purdue to emply two sets of backs this season. One outfit, composed entirely of seniors, was made up of White, Purvis, Risk and Yunevich. The other was made up of Horstman, Hecker, Carter and Pardonner, the last three sophomores.

Minneapolis, Minn., Sept. 18—(U.P.)—Although handicapped in picking a tentative first string eleven by the uncertainity of the return of his veteran tackles, Cno Eklund, Augsburg football coach today continued his blocking and tackling drills. The addition of Ray Eklund to the coaching staff was expected to aid his brother in developing a strong team.

Moorhead, Minn., Sept. 18—(U.P.)—Long scrimmages of the past week will be tapered off today with light passing and blocking drills at Concordia college where Coach Frank Cleve is pointing his team for a game tonight with North Dakota State College. The Concordia team as in past years will be outweighed by the Bison.

St. aPul, Minn., Sept. 18—(U.P.)—Coach Joe Boland and his St. Thomas College gridders went through a strenous practice today in preparatino for their opening game next Friday against the Moorhead State Teachers College team.

Easy Schedule Presages Good Season for Michigan Eleven

Editor's Note—Following is the second of a series on Big Ten football prospects. Today, Michigan.

Chicago, Sept. 18—(U.P.)—All things considered, Michigan appears to have the best chance of any Big Ten team of going through the 1931 season without losing a game.

Summarized briefly Michigan's prospects follow:

17 out of 23 letter men back.

21 sophomores comprising some of best material in ten years.

Made to order schedule, with only two games away from Ann Arbor.

Michigan, which tied Northwestern for the Big Ten last year, does not meet either Northwestern or Purdue, regarded as the other two leading contenders for the 1931 championship.

The Wolverines conference games are against Chicago, Ohio State, Illinois, Indiana and Minnesota and only intersectional game against Princeton.

If Harry Kipke, youngest coach in the Big Ten, could bring last year's eleven, handicapped by injuries and inexperience, through with eight victories and a scoreless tie, he ought to be able to pilot this year's outfit to an undefeated season.

Michigan's sophomores promise to crowd quite a number of last year's regulars out of the picture. Outstanding of the youngsters are Ted Petoskey, a big end of the Oosterbaan type; Chuck Bernard, center, who weighs 215 and is over 6 feet tall; Harry Stinesspring, 140-pound quarterback who is a dangerous pass receiver; J. Kowalik, a rugged guard; Herman Everhardus, a great passer and kicker; Stan Fay, Fred Ratterman and Jack Heston, a trio of brilliant backs.

Everhardus, Fay and Heston, second son of Willie Heston of All-Time All-American fame and recognized as a much better player than his brother, Willie, Jr., promise to see plenty of action in the Michigan backfield.

Kipke has five letter men back for ends. With Petoskey certain to win one end position, Kipke probably will shift some of his other ends to other positions. The pick of the letter men appear to be Bill Hewitt, who was out with a broken ankle last year, and Ivan Williamson.

Howard Auer and Tom Samuels, both regular tackles last year, are back. Omer La Jeunesse, regular last year, Leslie Douglas, reserve, Jay Sikkenga, a made over end, John Kowalik and Jim Conover, are the leading guard candidates.

Doc Morrison, all-conference center last year, rounds out a line that promises to play havoc with many a rival's offensive this season.

The Wolverines have two veteran quarterbacks in Harry Newman, all Big Ten player last year, and Zit Tessmer, who is in much better physical shape than a year ago, and two good youngsters in Stinespring and Donald Beck, sophomores.

Capt. Ducky Simrall and Jack Wheeler, regular halfbacks, last year are missing but there are better men to take their places. Halfbacks who won letters last year and are back include Willie Heston, Harry Eastman and Mutt De Baker.

Aged Pennsylvanian Cuts 80th Tobacco Crop

Lancaster, Pa., Sept. 18.—(U.P.)—Jacob Hostetter, 90, cut his 80th consecutive tobacco crop on his farm near Millersville.

Hostetter began planting tobacco in 1851, when Millard Filmore was president of the United States.

He has consistently refused to accept the "crop rotation" practice of neighboring farmers and grew tobacco on the same tract of land for 32 consecutive years.

Hostetter maintained that if the soil were properly fertilized, "treated right" he phrased it, there was no need for changing crops in succeeding years.

Aged Pennsylvanian Cuts 80th Tobacco Crop

Lancaster, Pa., Sept. 18.—(U.P.)—Jacob Hostetter, 90, cut his 80th consecutive tobacco crop on his farm near Millersville.

Hostetter began planting tobacco in 1851, when Millard Filmore was president of the United States.

He has consistently refused to accept the "crop rotation" practice of neighboring farmers and grew tobacco on the same tract of land for 32 consecutive years.

Hostetter maintained that if the soil were properly fertilized, "treated right" he phrased it, there was no need for changing crops in succeeding years.

Walkiewicz was an organist and composer before illness forced him to retire to a farm. He started composing the opera five years ago, but after a year dropped the work. Now he has resumed and hopes to have the opera ready for the stage in two years.

ASSOCIATION MAKES SURVEY OF FARM SALES

TEN THOUSAND LAKES GREATER MINNESOTA ASSOCIATION ASKS COOPERATION OF CITIZENS IN DETERMINING PROGRESS

Questionnaires have been sent out by the Ten Thousand Lakes Greater Minnesota Association to realtors and bankers throughout the state in an effort to learn what progress has been made in land sales during 1931.

Results of the questionnaire will be published in the annual report of the secretary, H. C. Hotaling which will be made public at the annual meeting of the Association at the Nicollet hotel, Minneapolis, December 11. Questionnaires have also been sent to resorts and tourists camps to determine the volume of the tourist business in the state during 1931.

Officers of the association hope that the citizens of the state will respond to the questionnaire and that all who receive them will return them promptly. It i stheir belief that of all the states Minnesota has been among the most fortunate during the recent nationwide depression. The number of inquiries that have been received at headquarters offices in recent months would also indicate that people in other states are looking towards Minnesota with a view of coming here to locate on farms or to enter business.

H. C. Hotaling, secretary of the association says that despite the depression many letters have been received from farmers who are interested in scuring a farm in Minnesota. Some are Minnesotans who moved to other states a few years ago and now want to come back. In commenting concerning immigration prospects Mr. Hotaling says: "There is no doubt that now is the opportune time to buy a farm. Values were never greater and I believe this especially applies to Minnesota which today is one of the most favored of all the farm states. Farmers of other states are now looking towards Minnesota and I believe that when financial conditions get better we will have a good healthy era of agricultural development. In fact I believe that if it were possible to learn how many farms were sold in Minnesota in 1931 that the facts would be surprising. For that reason I hope that all sections of the state will cooperate with the Ten Thousand Lakes-Greater Minnesota Association in making its survey. We're not standing still by any means."

Review Collings Kidnaping Story

Huntington, L. I., Sept. 18—(UP)—A gripping tale of kidnaping and murder in aristocratic Long Island Sound was told again today in the coroner's inquest into the death of Benjajmin P. Collings, slain yachtsman, beaten, tied and tossed from his cabin cruiser Penguin.

Mrs. Lillian Collings, attractive young widow of the dead man—herself kidnaped by two "pirates," who she said killed her husband and attempted to attack her—was not present to testify.

She was reported prostrated by a week's harrowing questioning nad reenacting the crime, and under a physician's care at the Collings' residence in the outskirts of Stamford, Conn.

Actress Refuses to Discuss Report

Hollywood, Sept. 18—(UP)—Gloria Swanson, film star, was in retirement today and would not discuss cable rumors from Paris that she was married to Michael Farmer, New York broker, last August.

Business representatives of the actress could not be reached for statements, evidently being "lost" between their homes and the studio which employes Miss Swanson.

It was pointed out there that the Los Angeles divorce of Miss Swanson from Marquis Henry De La Falaise De La Coudraye, her third husband, does not become final until November.

Meet Aimee's New Hubby

You'll probably hear lots of David L. Hutton from now on. He and Aimee Semple McPherson staged an airplane elopment from Los Angeles to Yuma, Ariz., where they were married and now they plan to write Biblical operas together. Hutton is a musician and vocal teacher of Pasadena. Aimee needs no introduction to newspaper readers. The newlyweds are shown signing the marriage license at Yuma.

Gandhi Lauds Courage of U. S. But Declares it Must Dissipate its Wealth to Bring End to Depression

(Copyright 1931 by United Press)

London, Sept. 18—(UP)—The United States must dissipate its great hoard of gold, a primary cause of the world depression, the Mahatma M. K. Gandhi said in an exclusive United Press interview today.

The leader of millions of Indians in their passive struggle for freedom squatted on a mattress on the cement floor of his cell in Kingsley hall as he received the correspondent.

"One day American will cease worshipping mammon and probably will become the best nation in the world," said the ascetic "great soul," in his loin cloth and unbleached shawls. "The United States has the necessary courage and idealism to become the best nation. The United States has a great hoard of gold—a curse and a primary cause of the depression. This must be dissipated, distributed and put into circulation, and wealth equalized.

"When I say equalized, I mean within the bounds of possibilities. You are a great producing country and have not learned the lesson of equitable distribution of wealth. Luxuries are concentrated in the hands of a few. There are vast stories of wheat, yet people are starving. Still, your poorest are more prosperous than the Indian poor. I can show you Indian villages and Indians actually crumbling under the weight of economic pressure."

Gandhi charged that India's economic troubles resulted from "foreign domination."

"Give India her freedom, and she will be relieved immediately of millions of pounds of burden," he said.

A free India, Gandhi went on, would welcome imports.

"If we export a bushel of wheat to obtain a bushel of corn which India needs, I heartily approve," he said. "But to export a bushel of wheat to import a British soldier is soul-destroying."

North Nokay Lake — Many of the farmers of this neighborhood have been filling their silos lately.

Hold Family Captive During Bank Robbery

Milton Junction, Wis., Sept. 18—(UP)—Four bandits who installed themselves in the home of John A. Paul, president of the Farmers bank, held Paul and his family captive during the night and obtained $5,000 from the bank today and escaped.

Paul was at home alone when the bandits threatened him with guns, forced him into a bedroom and then awaited arrival of other members of the family. When his sons, Paul Jr., and Malcolm, and a daughter, Janet arrived, they too were herded into the bedroom with the banker. The bandits apparently were well informed regarding the family's membership.

Minneapolis, ept. 18.—(UP)—Lindsay S. Smith, assistant secretary of the Hennepin Savings and Loan Association today was arraigned in municipal court on a charge of grand larceny of $30,000.

Up to 2 o'clock this afternoon not a woman had cast her vote for county superintendent in any of the wards of the city of Brainerd, although the law compels the establishing of a separate ballot box for their use. There was no contest on superintendent and therefore nothing to call the women out however much interest they might take in the schools.

One lone councilman showed up when the hour came for calling the meeting to order and an adjournment was taken until Wednesday evening. Several members were out of town and the political meeting and the Great McEwen, together with the fact that the stores were many of them open proved too much opposition so the city business had to go to a more favorable time.

ASSOCIATION MAKES SURVEY OF FARM SALES

TEN THOUSAND LAKES GREATER MINNESOTA ASSOCIATION ASKS COOPERATION OF CITIZENS IN DETERMINING PROGRESS

Questionnaires have been sent out by the Ten Thousand Lakes Greater Minnesota Association to realtors and bankers throughout the state in an effort to learn what progress has been made in land sales during 1931.

Results of the questionnaire will be published in the annual report of the secretary, H. C. Hotaling which will be made public at the annual meeting of the Association at the Nicollet hotel, Minneapolis, December 11. Questionnaires have also been sent to resorts and tourists camps to determine the volume of the tourist business in the state during 1931.

Officers of the association hope that the citizens of the state will respond to the questionnaire and that all who receive them will return them promptly. It i stheir belief that of all the states Minnesota has been among the most fortunate during the recent nationwide depression. The number of inquiries that have been received at headquarters offices in recent months would also indicate that people in other states are looking towards Minnesota with a view of coming here to locate on farms or to enter business.

H. C. Hotaling, secretary of the association says that despite the depression many letters have been received from farmers who are interested in scuring a farm in Minnesota. Some are Minnesotans who moved to other states a few years ago and now want to come back. In commenting concerning immigration prospects Mr. Hotaling says: "There is no doubt that now is the opportune time to buy a farm. Values were never greater and I believe this especially applies to Minnesota which today is one of the most favored of all the farm states. Farmers of other states are now looking towards Minnesota and I believe that when financial conditions get better we will have a good healthy era of agricultural development. In fact I believe that if it were possible to learn how many farms were sold in Minnesota in 1931 that the facts would be surprising. For that reason I hope that all sections of the state will cooperate with the Ten Thousand Lakes-Greater Minnesota Association in making its survey. We're not standing still by any means."

Review Collings Kidnaping Story

Huntington, L. I., Sept. 18—(U.P.)—A gripping tale of kidnaping and murder in aristocratic Long Island Sound was told again today in the coroner's inquest into the death of Benjajmin P. Collings, slain yachtsman, beaten, tied and tossed from his cabin cruiser Penguin.

Mrs. Lillian Collings, attractive young widow of the dead man—herself kidnaped by two "pirates," who she said killed her husband and attempted to attack her—was not present to testify.

She was reported prostrated by a week's harrowing questioning nad reenacting the crime, and under a physician's care at the Collings' residence in the outskirts of Stamford, Conn.

Actress Refuses to Discuss Report

Hollywood, Sept. 18—(U.P.)—Gloria Swanson, film star, was in retirement today and would not discuss cable rumors from Paris that she was married to Michael Farmer, New York broker, last August.

Business representatives of the actress could not be reached for statements, evidently being "lost" between their homes and the studio which employes Miss Swanson.

It was pointed out there that the Los Angeles divorce of Miss Swanson from Marquis Henry De La Falaise De La Coudraye, her third husband, does not become final until November.

Meet Aimee's New Hubby

You'll probably hear lots of David L. Hutton from now on. He and Aimee Semple McPherson staged an airplane elopment from Los Angeles to Yuma, Ariz., where they were married and now they plan to write Biblical operas together. Hutton is a musician and vocal teacher of Pasadena. Aimee needs no introduction to newspaper readers. The newlyweds are shown signing the marriage license at Yuma.

Gandhi Lauds Courage of U. S. But Declares it Must Dissipate its Wealth to Bring End to Depression

(Copyright 1931 by United Press)

London, Sept. 18.—(U.P.)—The United States must dissipate its great hoard of gold, a primary cause of the world depression, the Mahatma M. K. Gandhi said in an exclusive United Press interview today.

The leader of millions of Indians in their passive struggle for freedom squatted on a mattress on the cement floor of his cell in Kingsley hall as he received the correspondent.

"One day American will cease worshipping mammon and probably will become the best nation in the world," said the ascetic "great soul," in his loin cloth and unbleached shawls. "The United States has the necessary courage and idealism to become the best nation. The United States has a great hoard of gold—a curse and a primary cause of the depression. This must be dissipated, distributed and put into circulation, and wealth equalized.

"When I say equalized, I mean within the bounds of possibilities. You are a great producing country and have not learned the lesson of equitable distribution of wealth. Luxuries are concentrated in the hands of a few. There are vast stories of wheat, yet people are starving. Still, your poorest are more prosperous than the Indian poor. I can show you Indian villages and Indians actually crumbling under the weight of economic pressure."

Gandhi charged that India's economic troubles resulted from "foreign domination."

"Give India her freedom, and she will be relieved immediately of millions of pounds of burden," he said.

A free India, Gandhi went on, would welcome imports.

"If we export a bushel of wheat to obtain a bushel of corn which India needs, I heartily approve," he said. "But to export a bushel of wheat to import a British soldier is soul-destroying."

Nokay Lake Farmers Filling Their Silos

North Nokay Lake — Many of the farmers of this neighborhood have been filling their silos lately.

Cattle testers are with us now. Here's hoping they won't find any reactors in our herds.

The school board of district No. 47 met at Martin Olson's Tuesday to discuss insurance of the pupils riding on the bus. Those present were Ole Norgard, Clarence Norgard, Leon Bock and Tom Mullholland.

Miss Laura Spohn and Sam Spohn called at Olson's Monday evening.

Our boys lost the ball game to a Brainerd team Sunday.

Mr. and Mrs. Louis Anderson invited a number of their neighbors to a housewarming party at the old Carlson farm, Sunday. They recently purchased the place from Alexis Carlson and will rent it out.

Leonard Olson made a business trip to the range Wednesday.

A man and his family from the drought stricken area around Huron, S. D., was in this neighborhood looking for a good farm to rent. He said farmers of that place had lost two crops in succession from drought.

We are lucky though we raise more than we can sell.

Hold Family Captive During Bank Robbery

Milton Junction, Wis., Sept. 18—(U.P.)—Four bandits who installed themselves in the home of John A. Paul, president of the Farmers bank, held Paul and his family captive during the night and obtained $5,000 from the bank today and escaped.

Paul was at home alone when the bandits threatened him with guns, forced him into a bedroom and then awaited arrival of other members of the family. When his sons, Paul Jr., and Malcolm, and a daughter, Janet arrived, they too were herded into the bedroom with the banker. The bandits apparently were well informed regarding the family's membership.

Legal Aid Society for Needy

Memphis, Sept. 18.—(U.P.)—A "Free Legal Aid Society" to benefit needy persons, who are unable to hire lawyers to defend them, has been organized here by nine young attorneys. The society was formed when it was discovered that out of 4,000 cases heard in four magistrates' courts, only 40 acquittals, or dismissals, of charges were obtained.

Bound Over on Charge of Larceny of $30,000

Minneapolis, ept. 18.—(U.P.)—Lindsay S. Smith, assistant secretary of the Hennepin Savings and Loan Association today was arraigned in municipal court on a charge of grand larceny of $30,000.

The charge is the outgrowth of his alleged theft of between $300,000 and $400,000 from the association during the 10 years he is said to have been manipulating the books of the concern.

Smith waived examination and bound over to the district court.

Up to 2 o'clock this afternoon not a woman had cast her vote for county superintendent in any of the wards of the city of Brainerd, although the law compels the establishing of a separate ballot box for their use. There was no contest on superintendent and therefore nothing to call the women out however much interest they might take in the schools.

One lone councilman showed up when the hour came for calling the meeting to order and an adjournment was taken until Wednesday evening. Several members were out of town and the political meeting and the Great McEwen, together with the fact that the stores were many of them open proved too much opposition so the city business had to go to a more favorable time.

Sept. 18, 1906

Hilding Swanson left for Valparaiso, Ind., the early part of the week to enter college there.

Mr. and Mrs. William Falkenreck will celebrate their silver wedding Saturday, Sept. 22.

The case of the four boys arrested in connection with the charivari last week is on for hearing this afternoon in the municipal court. Judge Alderman is representing the city and Judge Fleming is defending the prisoners. There seems little chance of the case being closed before supper time.

J. M. Quin and Jack Gilmer returned today from a trip to Bemidji.

Ed. Somers has been drawn as one of the United States jury at St. Paul to convene Oct. 2.

H. H. Krause, who left the employ of John T. Imgrund as a cigar maker and went to Staples a few months ago to open a cigar factory has sold out and returned to Brainerd and re-entered the employ of Imgrund.

The large, handsome store building, corner E. Oak and 13th street erected by John Stenberg is ready for occupancy. Stenberg is engaged in removing his stock to the new building.

A Brainerd woman who previously contributed songs and poems on specific occasions was inspired to write a song specially for the 13th annual convention of the Milaca Circuit Young People's Luther League to be held at the Norwegian Danish Lutheran church at Brainerd tomorrow and Sunday.

The words, penned by Miss Jessie B. Thabes, entitled "He Changeth Not" suggested from Hebrews, Chapter 18, verse 8 and, will be sung at the Sunday morning service of the conference. They will be sung to the melody of "What a Friend We Have in Jesus."

The song follows:

Jesus Christ, our blessed Saviour
We are gathering in His name.
Yesterday, today, forever
He is evermore the same.
As we claim His precious promise
He will meet with us today
Bless us with his loving presence
As we speak and sing and pray.

Jesus Christ the same forever
In His power, His love and might.
Nothing from this love can sever.
"We are precious in His sight."
He will never, never leave us
He will guide us all the way.
Christ, our Lord who died to save us
He is just the same today.

Jesus Christ our blessed Saviour
Some glad day He'll come again—
"Prince of Peace"—will reign forever
Banish all our grief and pain.
When He comes all sing the story!
Jesus evermore the same
Gracious Lord, our King of glory—
Blessed be His holy name.

ENGINEERS TRYING TO SEND COAL BY PIPE LINE

Lansford, Pa., Sept. 18—(U.P.)—Lehigh Navagition Coal Company engineers are experimenting with transportation of pulverized anthracite by pipe line as a means of reducing transportation costs.

Reports of the experiments show that the engineers have developed a method of pulverizing smaller sizes of anthracite, moving the product in a semi-liquid state through a pipe line for a considerable distance and drying it at its destination.

The method is expected to reduce materially the delivery price of coal.

Particular interest in the success of the expeirment was created by the proposed 15 per cent horizontal freight rate increase asked by railroads. Anthractite operators and union leaders contend that rates on coal are always excessive and further increase will seriously hamper the industry in regaining its markets.

"MAKE-BELIEVE" by FAITH BALDWIN

Copyright, 1930, by Faith Baldwin Distributed by King Features Syndicate, Inc.

Travers Lorrimer, shell-shocked son of wealthy Margaret Lorrimer, mistakes Mary Lou Thurston, beautiful orphan, for Delight Harford, whom he claims he married in England during the war. At Mrs. Lorrimer's request, Mary Lou assumes the role of Delight. Complications arise when, after months of happy companionship, Travers insists upon knowing if Mary Lou loves him. She realizes she cannot go on acting, for she has grown to care. At the crucial moment, Larry Mitchell, Mary Lou's newspaper reporter friend, locates the real Delight acting in a revue. Mrs. Lorrimer, favoring Mary Lou, hopes that Delight is not Travers' wife and that she will return to England. After a sleepless night Mary Lou visits Delight.

CHAPTER XLIV.

LORRIMER had left early that morning for the flying field. Mrs. Lorrimer had estate matters to attend to before noon and for the afternoon had been persuaded to go to a bridge party at the Wynnes' Jenny was in town, visiting a consin, staying for a week or so, in order to buy clothes, having left for New York that morning. While Jenny was in Manhattan, Lary would be well occupied. So at breakfast with Margaret, Lorrimer having breakfasted early and alone, Mary Lou had said that she must go to town and out to see Billy. She hadn't seen him in several weeks, and a letter had just come from India which when she answered, she wishedwished to answer from first-hand knowledge.

But she was not planning to go straight to Oakdale. She had an errand in town first, upon the subject of which she was mute.

The Meeting

"Well?" asked Diana Hackett in the receiver.

Mary Lou's nerves steadied. She spoke her own name, told the rather indifferent listener on the other end of the wire that she was a friend of Larry Mitchell's and wished to see her as soon as possible on a matter of great importance. Could she come to the hotel now? Yes, she was nearby—at the Grand Central, in fact. "It really is important," she said, "to you, Miss Hackett."

"Come along then," answered Diana.

"Will we be alone?"

"More or less," the other woman answered.

Mary Lou went out of the booth presently and took a taxi to the hotel. A few minutes later the door of an apartment was opened to her.

"The other girls are asleep," said Delight Harford. "We can sit here in the living room."

Delight was not fully dressed. She was wearing a negligee which had once been quite lovely but which now was soiled and torn. She had high-heeled mules on bare feet and her hennaed thick hair was in early-morning, just-out-of-bed disorder. Her blue eyes were heavy with weariness and her face haggard. But her fine skin was radiant and she smiled at the younger girl with spontaneous friendliness. She liked the look of her somehow—of whom did she remind her?

"I—I feel I've gotten you up," said Mary Lou.

She looked with a sort of inner despair at the other woman. Somehow she hadn't expected her to look like this—a little unkempt, a little uncared for, hard, as Larry had said, and appearing even more than her age. Her only beauties were the quantity and quality of the touched-up hair and carefully tended skin and the small, rounded figure.

They sat down in the uninteresting, rather dark sitting room. A pot of coffee stood on the table on a tray.

"I was just getting an eye-opener," explained Mary Lou's hostess. "Will you join me?"

"No, thank you—"

"Cigarette?"

"No—"

Diana lighted one, poured the coffee, stirred in some cream and sat back in her big chair.

Favorable Impression

"What did you wish to see me about, Miss Thurston?" she asked.

Mary Lou leaned forward. The other woman looked at her, observing the well cut suit, the small sable scarf, the sheer stockings, the shoes; observing, too, the great sapphire on Mary Lou's slender hand. The girl was evidently very well off. She was simply but expensively dressed and she was very pretty. Under the close-fitting, almost brimless hat the red-gold hair rioted in small, entrancing curls. The blue eyes were serious and brilliant and the round cheeks flushed with an unnatural color, the color of nervousness and excitement, for Mary Lou had gotten out of bed that morning to view a very pale little face in the mirror.

What on earth did the child want? Perhaps she wanted to go on the stage, had heard of Diana, had money, wished to buy herself a job? If that were the case, mused the older woman, she'd discourage it, money or no money. She was a fair judge of character—she had to be—and if she knew anything about girls, this small, eager, honest looking little person was too pretty and too sensitive to last long in that dog-eat-dog profession.

"Well?" she prompted.

Mary Lou took the plunge.

"Miss Harford——" she said.

"What!" Delight set down her coffee cup with a miniature crash. She was startled, curious, but not particularly annoyed. "Now where did you learn that, I wonder?" she mused aloud. She had quite forgotten telling Larry Mitchell. Was it possible that this youngster was a relative or something? Delight rather hoped so. She liked her.

"Larry told me," said Mary Lou.

"Larry? Oh, the red-headed press-agent lad—nice kid. But why should he tell you?" asked Delight.

"It's a long story," said Mary Lou, rather desperately. "I'll have to tell you from the beginning. It's about—Travers Lorrimer."

Delight Harford looked down at the seal ring she wore.

"Travers? But Lorry is dead," she said slowly.

Lorry? Mary Lou's heart swelled, rose, it seemed, almost to her throat.

"No," she managed to say quietly, "no, he's not dead. Please, Miss Harford, may I tell you in my own way?"

"Yes. Wait a minute. Not dead? Not dead. My God, if I had known that!" said Delight Harford. She was ashen white with shock.

Mary Lou waited, sickened. After a minute Delight said:

"Go on. What about him? I won't interrupt."

"I'll have to start with me," said Mary Lou, youthfully. She told Delight something of her background, her circumstances, the removal of her aunt and uncle to the Orient, of her necessity for finding employment. Presently she came to Lorry and the advertisement in the paper and her journey out to Westmill to the place called Westwood House, of her disappointment in learning the mistake, the omission in the advertisement, and of her encounter with Lorrimer.

"You see, he thought I was—you. He—he wouldn't let me go. And he was so ill, so distressed that his mother and doctor decided I must stay—and play a part—your part."

Delight looked at her blankly. She was past astonishment. Suddenly, with an odd murmur, she rose and left the room. Mary Lou sat quite still, waiting. Oh, he couldn't care for this woman; he couldn't! But he had. And perhaps memory and loyalty would hold. . . .

Delight came back. She had with her a small snapshot. It had been taken on that last leave of Lorrimer's. It showed them standing together in some great park or other, showed the laughing boy Mary Lou had never known, showed a small, slender girl.

Mary Lou held it in her hands. Here was proof, if proof were needed.

"You do look," said Delight Harford, very miserably, "much as I used to look . . . so long ago."

The Whole Story

Mary Lou laid the picture down on the table and went on.

"So I stayed," she said, "and because he thought I was you, because I brought back to him, playing your part, a new interest in life—he changed. He's well now," said Mary Lou, with a certain pride. "He's splendid!"

She described, briefly, Lorrimer's mental, nervous and physical condition when she had first seen him, the gradual change, the altering interests, the return to normal living, normal thinking.

"You did a good job," said Delight Harford. "And what now?"

"Just this. You've come back. Larry knows. Larry is one of the few people who knows the truth of this—Larry and the doctor. Mrs. Lorrimer's other friends have accepted me—as you, as a girl Lorrimer knew, in wartime. But you have come back now."

"Why didn't Mitchell say anything to me?" interrupted Delight, a little harshly.

"He had to be sure. The circumstances were so unusual. He didn't dare tell you until he had told me and Mrs. Lorrimer."

"I don't notice that she rushed over here to see me," remarked Delight.

"No," said Mary Lou, with candor, "she didn't. You see, Miss Harford, ever since he—Mr. Lorrimer," she stumbled a little, "came home he has had one fixed idea. You. Your marriage to him on the day of his leave."

BRAINERD WOMAN WRITES SONG FOR CONVENTION HERE

"HE CHANGETH NOT" TO BE SUNG SUNDAY MORNING AT LUTHER LEAGUE CONCLAVE

A Brainerd woman who previously contributed songs and poems on specific occasions was inspired to write a song specially for the 13th annual convention of the Milaca Circuit Young People's Luther League to be held at the Norwegian Danish Lutheran church at Brainerd tomorrow and Sunday.

The words, penned by Miss Jessie B. Thabes, entitled "He Changeth Not" suggested from Hebrews, Chapter 18, verse 8 and, will be sung at the Sunday morning service of the conference. They will be sung to the melody of "What a Friend We Have in Jesus.'

The song follows:

Jesus Christ, our blessed Saviour
We are gathering in His name.
Yesterday, today, forever
He is evermore the same.
As we claim His precious promise
He will meet with us today
Bless us with his loving presence
As we speak and sing and pray.

Jesus Christ the same forever
In His power, His love and might.
Nothing from this love can sever.
"We are precious in His sight."
He will never, never leave us
He will guide us all the way.
Christ, our Lord who died to save us
He is just the same today.

Jesus Christ our blessed Saviour
Some glad day He'll come again—
"Prince of Peace"—will reign forever
Banish all our grief and pain.
When He comes all sing the story!
Jesus evermore the same
Gracious Lord, our King of glory—
Blessed be His holy name.

The convention will attract delegates from McGrath, Milaca, Princeton, St. Cloud, Little Falls, Staples, Pequot, Brook Park and Brainerd.

The conference theme will be "Jesus Christ the same yesterday, today and forever."

The ladies aid of the church will serve supper tomorrow evening and dinner Sunday noon. More than 150 out of the city delegates are expected. Rev. Sam Carlsen, Minneapolis and Rev. Roy Olson, St. Cloud will be the principal speakers.

ENGINEERS TRYING TO SEND COAL BY PIPE LINE

Lansford, Pa., Sept. 18—(U.P.)—Lehigh Navagition Coal Company engineers are experimenting with transportation of pulverized anthracite by pipe line as a means of reducing transportation costs.

Reports of the experiments show that the engineers have developed a method of pulverizing smaller sizes of anthracite, moving the product in a semi-liquid state through a pipe line for a considerable distance and drying it at its destination.

The method is expected to reduce materially the delivery price of coal.

Particular interest in the success of the expeirment was created by the proposed 15 per cent horizontal freight rate increase asked by railroads. Anthractite operators and union leaders contend that rates on coal are always excessive and further increase will seriously hamper the industry in regaining its markets.

"MAKE-BELIEVE" by FAITH BALDWIN

Copyright, 1930, by Faith Baldwin Distributed by King Features Syndicate, Inc.

Travers Lorrimer, shell-shocked son of wealthy Margaret Lorrimer, mistakes Mary Lou Thurston, beautiful orphan, for Delight Harford, whom he claims he married in England during the war. At Mrs. Lorrimer's request, Mary Lou assumes the role of Delight. Complications arise when, after months of happy companionship, Travers insists upon knowing if Mary Lou loves him. She realizes she cannot go on acting, for she has grown to care. At the crucial moment, Larry Mitchell, Mary Lou's newspaper reporter friend, locates the real Delight acting in a revue. Mrs. Lorrimer, favoring Mary Lou, hopes that Delight is not Travers' wife and that she will return to England. After a sleepless night Mary Lou visits Delight.

CHAPTER XLIV.

LORRIMER had left early that morning for the flying field. Mrs. Lorrimer had estate matters to attend to before noon and for the afternoon had been persuaded to go to a bridge party at the Wynnes' Jenny was in town, visiting a consin, staying for a week or so, in order to buy clothes, having left for New York that morning. While Jenny was in Manhattan, Lary would be well occupied. So at breakfast with Margaret, Lorrimer having breakfasted early and alone, Mary Lou had said that she must go to town and out to see Billy. She hadn't seen him in several weeks, and a letter had just come from India which when she answered, she wishedwished to answer from first-hand knowledge.

But she was not planning to go straight to Oakdale. She had an errand in town first, upon the subject of which she was mute.

The Meeting

"Well?" asked Diana Hackett in the receiver.

Mary Lou's nerves steadied. She spoke her own name, told the rather indifferent listener on the other end of the wire that she was a friend of Larry Mitchell's and wished to see her as soon as possible on a matter of great importance. Could she come to the hotel now? Yes, she was nearby—at the Grand Central, in fact. "It really is important," she said, "to you, Miss Hackett."

"Come along then," answered Diana.

"Will we be alone?"

"More or less," the other woman answered.

Mary Lou went out of the booth presently and took a taxi to the hotel. A few minutes later the door of an apartment was opened to her.

"The other girls are asleep," said Delight Harford. "We can sit here in the living room."

Delight was not fully dressed. She was wearing a negligee which had once been quite lovely but which now was soiled and torn. She had high-heeled mules on bare feet and her hennaed thick hair was in early-morning, just-out-of-bed disorder. Her blue eyes were heavy with weariness and her face haggard. But her fine skin was radiant and she smiled at the younger girl with spontaneous friendliness. She liked the look of her somehow—of whom did she remind her?

"I—I feel I've gotten you up," [illegible]

She looked with a sort of inner despair at the other woman. Somehow she hadn't expected her to look like this—a little unkempt, a little uncared for, hard, as Larry had said, and appearing even more than her age. Her only beauties were the quantity and quality of the touched-up hair and carefully tended skin and the small, rounded figure.

They sat down in the uninteresting, rather dark sitting room. A pot of coffee stood on the table on a tray.

"I was just getting an eye-opener," explained Mary Lou's hostess. "Will you join me?"

"No, thank you—"

"Cigarette?"

"No—"

Diana lighted one, poured the coffee, stirred in some cream and sat back in her big chair.

Favorable Impression

"What did you wish to see me about, Miss Thurston?" she asked.

Mary Lou leaned forward. The other woman looked at her, observing the well cut suit, the small sable scarf, the sheer stockings, the shoes; observing, too, the great sapphire on Mary Lou's slender hand. The girl was evidently very well off. She was simply but expensively dressed and she was very pretty. Under the close-fitting, almost brimless hat the red-gold hair rioted in small, entrancing curls. The blue eyes were serious and brilliant and the round cheeks flushed with an unnatural color, the color of nervousness and excitement, for Mary Lou had gotten out of bed that morning to view a very pale little face in the mirror.

What on earth did the child want? Perhaps she wanted to go on the stage, had heard of Diana, had money, wished to buy herself a job? If that were the case, mused the older woman, she'd discourage it, money or no money. She was a fair judge of character—she had to be—and if she knew anything about girls, this small, eager, honest looking little person was too pretty and too sensitive to last long in that dog-eat-dog profession.

"Well?" she prompted.

Mary Lou took the plunge.

"Miss Harford——" she said.

"What!" Delight set down her coffee cup with a miniature crash. She was startled, curious, but not particularly annoyed. "Now where did you learn that, I wonder?" she mused aloud. She had quite forgotten telling Larry Mitchell. Was it possible that this youngster was a relative or something? Delight rather hoped so. She liked her.

"Larry told me," said Mary Lou.

"Larry? Oh, the red-headed press-agent lad—nice kid. But why should he tell you?" asked Delight.

"It's a long story," said Mary Lou, rather desperately. "I'll have to tell you from the beginning. It's about—Travers Lorrimer."

Delight Harford looked down at the seal ring she wore.

"Travers? But Lorry is dead," she said slowly.

Lorry? Mary Lou's heart swelled, rose, it seemed, almost to her throat.

"No," she managed to say quietly, "no, he's not dead. Please, Miss Harford, may I tell you in my own way?"

"Yes. Wait a minute. Not dead? Not dead. My God if I had known that!" said Delight Harford. She was ashen white with shock.

Mary Lou waited, sickened. After a minute Delight said:

"Go on. What about him? I won't interrupt."

"I'll have to start with me," said Mary Lou, youthfully. She told Delight something of her background, her circumstances, the removal of her aunt and uncle to the Orient, of her necessity for finding employment. Presently she came to Lorry and the advertisement in the paper and her journey out to Westmill to the place called Westwood House, of her disappointment in learning the mistake, the omission in the advertisement, and of her encounter with Lorrimer.

"You see, he thought I was—you. He—he wouldn't let me go. And he was so ill, so distressed that his mother and doctor decided I must stay—and play a part—your part."

Delight looked at her blankly. She was past astonishment. Suddenly, with an odd murmur, she rose and left the room. Mary Lou sat quite still, waiting. Oh, he couldn't care for this woman; he couldn't! But he had. And perhaps memory and loyalty would hold. . . .

Delight came back. She had with her a small snapshot. It had been taken on that last leave of Lorrimer's. It showed them standing together in some great park or other, showed the laughing boy Mary Lou had never known, showed a small, slender girl.

Mary Lou held it in her hands. Here was proof, if proof were needed.

"You do look," said Delight Harford, very miserably, "much as I used to look . . . so long ago."

The Whole Story

Mary Lou laid the picture down on the table and went on.

"So I stayed," she said, "and because he thought I was you, because I brought back to him, playing your part, a new interest in life—he changed. He's well now," said Mary Lou, with a certain pride. "He's splendid!"

She described, briefly, Lorrimer's mental, nervous and physical condition when she had first seen him, the gradual change, the altering interests, the return to normal living, normal thinking.

"You did a good job," said Delight Harford. "And what now?"

"Just this. You've come back. Larry knows. Larry is one of the few people who knows the truth of this—Larry and the doctor. Mrs. Lorrimer's other friends have accepted me—as you, as a girl Lorrimer knew, in wartime. But you have come back now."

"Why didn't Mitchell say anything to me?" interrupted Delight, a little harshly.

"He had to be sure. The circumstances were so unusual. He didn't dare tell you until he had told me and Mrs. Lorrimer."

"I don't notice that she rushed over here to see me," remarked Delight.

"No," said Mary Lou, with candor, "she didn't. You see, Miss Harford, ever since he—Mr. Lorrimer," she stumbled a little, "came home he has had one fixed idea. You. Your marriage to him on the day of his leave."
